A Message from the Executive Director

Southern Tier Library System

August 22, 2016

Dear Member Libraries:

The 2015 Annual Statistical Report is a summarization of all member library statistics for the most recent calendar year. The report is generated by the Southern Tier Library System (STLS) using web-based software provided by the New York State Library, and input from member libraries. Although this report does not contain all information submitted by member libraries in their Annual Report for Public and Association Libraries, it does provide information that is most useful and relevant to your operations. If member libraries would like additional information, please feel free to contact STLS. We hope you will use the information contained within to make important decisions about your library's practices.

Understanding how other libraries operate can help directors and trustees develop and improve essential services. *Regulation 90.2 of the Commissioner of Education* lists *Standards for Registration of Public, Free Association and Indian Libraries*. In addition to meeting minimum commissioner standards, libraries should continually evaluate how their outreach impacts community needs. The goal should never be to meet minimum standards, but rather exceed community expectations.

The Southern Tier Library System was established and chartered in 1958 to strengthen public libraries in Allegany, Chemung, Schuyler, Steuben and Yates counties. Utilizing library-specific practices, STLS is committed to providing shared services that enable libraries to focus on work that matters most. The Southern Tier Library System empowers libraries to improve the quality of life within our local communities. As always, thank you for your continued support and many efforts. STLS is here to serve our member libraries. Please feel free to call or write anytime.

Kindest Regards,

Brian M. Hildreth, Executive Director
