Finance & Facilities Committee Meeting Minutes 3.13.2017 at 3:15 pm STLS Headquarters, Painted Post, NY

Present: Betsy Gorman (Chair), S. Barr, P. Finnerty, D. Wexell, and B. Hildreth

Meeting was called to order at 3:15 pm

Review of Financial Statements

B. Hildreth reviewed the financial statements with committee members. Committee members asked appropriate questions specific to each report. B. Hildreth would follow-up with the business manager with any questions that could not be answered in the committee meeting, and would provide answers at March board meeting.

2016 Organizational Audit

B. Hildreth said the audit has been scheduled for the week of April 17. K. Stickler from Mengal, Metzger and Barr would be onsite April 10 to attend the Finance & Facilities Committee meeting. B. Hildreth provided questions to committee members that might be advantageous to the audit process.
Committee members indicated they would review the questions and come-up with additional questions for the next meeting.

Building Update

B. Hildreth discussed the upcoming purchase of office desks. He said the desk were chosen after reviewing multiple vendors. Desks are ergonomically correct to provide a safe working environment for staff. More information would be provided at the next meeting. B. Hildreth also said he was working with the Red Cross to provide safety training to STLS staff. The Red Cross was also providing a work-place safety kit as part of the training, which will allow for more directional signs to prepare for emergencies.

Meeting adjourned at 4:15 pm.

Respectfully submitted:

Brian Hildreth, Executive Director

Next Meeting April 10, 2017

Southern Tier Library Foundation

Minutes Wednesday January 25th 2017

Attendees: Peter Gamba , Judy Phillips , Denise King, Dale Wexell, Kay Thomas, Absent: Brian Hildreth , Sherry Collins , Paul Webster Bonnie Weber, Phil Archer

We welcomed a new member Kay Thomas from the Dundee Library . We approved the minutes.

Our financial balance is \$9,964.79 with an additional \$2,000 coming from Dale Wexell. The fundraising mailing had 1/3 of the mailings return. The mailings were sent to previous donors only. This is a good return rate.

There was a chart summarizing our donor history from 2011 thru 2015

Dale will put together a mail list for in the April – May time frame and we plan to have another mailing the middle of the year.

We talked about connecting with more people and one idea was for board members to have fund raisings get togethers at individuals homes. Cocktail parties, local authors gatherings and special events are ways we can gather people. An example is that the STLS board is having an event called a Ball. Some groups have silent auctions of gift baskets from local businesses. Reach out to businesses via the chamber of commerce.

A goal was to ask big donors to come. Ask each board member to recommend individuals who could be donors.

We talked about the areas where there is a better opportunity to recruit donors. The areas of Horseheads, Elmira and Corning came up as focus areas.

Brian's presentation is very effective and it can be uses at events. We also need to make the mission clearer about what services the libraries offer that need financial support that is not gotten from the community or State.

Peter will ask Brian to send letters to libraries for them to submit grant applications for a grant

We agreed to be our annual meeting on April 25^{th} and we will have two meeting before the annual meeting one on March 8^{th} and the next on April 5^{th} .

Thanks

Peter Gamba

Agenda Foundation for Southern Tier Libraries Wednesday, March 8, 2017 at 4 PM

In Attendance: Sherrill Collins, Peter Gamba, Brian Hildreth, Denise King, Kay Thomas, Bonnie Weber, Paul Webster, Dale Wexell

Call to Order/Quorum

P. Gamba called the meeting to order at 4:03 pm.

Approve Agenda

Board members reviewed the agenda as presented. No revisions or items were added.

Introductions

S. Collins introduced herself to the group as did K. Thomas.

Minutes

Board member reviewed meeting minutes from previous Foundation board meeting. B. Weber made a motion to approve. Approved unanimously

Financials

P. Webster presented financials dated January 31, 2017. A balance of accounts reflected \$10,015.

Discussion: D. King asked about annual appeal letter and the response rate. P. Webster indicated the response was good this year because the mailing lists were revised to reflect 5-years of giving. B. Weber said roughly 140 mailings were sent to past donors. B. Hildreth confirmed that only past donors received letters and not member library representatives.

Advocacy

P. Gamba along with B. Hildreth talked about Advocacy Day efforts in Albany. P. Gamba said the number of STLS representatives attending was fantastic. B. Hildreth confirmed this by stating it was the most number of attendees he has seen since coming to STLS. He also indicated how proud he was of the advocates as they all did a wonderful job representing their libraries and communities.

Fundraising

Board members discussed future fund raising ideas. D. Wexell recommended creating a list of donors who aligned their support with libraries. D. King said future networking events can also be successful. P. Gamba referenced the spring 2016 event at Elmira College. S. Collins said she would work with board members to generate a list using current giving information and information provided by board members.

2017 Foundation Grants

P. Gamba said he was working with B. Hildreth to get 2017 grant information out to STLS member libraries. It was agreed the grant announcement would be sent the week of March 13. A date of May 31 was set to award grants to member libraries. Board members would meet May 3 at 4:00 pm to review applications.

Addendum B: Direct Access Plan 2017 – 2021

Southern Tier Library System in partnership with STLS Member Libraries

I. Commissioner's Regulations 90.3 (a) Definitions

Public Library System means a library established by one or more counties, a group of libraries serving an area including one or more counties in whole or in part, a library of a city containing one or more counties, or a cooperative library system established pursuant to the provisions of section 255 of the Education Law.

Approved plan of service means a plan of library service submitted by a public library system board of trustees in accordance with section 272 of the Education Law that has been approved by the Commissioner pursuant to the provisions of this section. The plan of service defines the mutual commitments, responsibilities and obligations of the public library system and its members in meeting the service needs of the area served and statewide library service goals.

Direct Access means the ability of an individual, who resides within the boundaries of a public library system and who has a valid borrower's card issued by the system or any member library in the system, to borrow materials for home use directly from the premises of any library that is a member of the public library system on the same basis as that specified for cardholders in each individual library.

Chartered service area means the geographic area served by a library as stated in charter documents as approved by the Board of Regents and on file with the department. For purposes of this section, the phrase "and its environs" or its equivalent, as contained in any charter document will not be recognized by the commissioner as a valid part of the library's chartered service area. For purposes of this section, the commissioner will not recognize areas served by the library under contract as a valid part of a library's chartered service area.

Resident borrower means an individual who resides within the boundaries of the chartered service area of a public or association or Indian library as defined in section 253 of the Education Law and who is a library cardholder at that library.

Non-resident borrower means an individual who resides outside the boundaries of the chartered service area of a public or association or Indian library as defined in section 253 of the Education Law and who is a library cardholder at that library or at another member library of the public library system who is a system cardholder.

Library resources mean the print and non-print materials owned by the library and any other services provided by the library to the resident borrowers of the library's chartered service area.

Local income means funds supplied by local taxing agencies which may be municipalities, school districts or special districts. These funds may be from the library's sponsoring municipality or from a non-sponsoring municipality in payment for library services.

On-site use means the ability of an individual to use library resources on the premises of a library.

Serious inequities and hardships mean those conditions which adversely affect resident borrowers of member libraries. Such conditions are defined in accordance with the free direct access provisions

contained in each system's approved plan of service and may include, but limited to, a definition of what constitutes excessive borrowing of a library's resources by non-resident borrowers.

Unserved means those individuals residing in geographic areas that are within the boundaries of a public library system but outside the boundaries of chartered service area of a library which is a member of that system.

Underserved means those individuals residing in geographic areas that are within the chartered service area of a member library and which the public library system had identified as having an inadequate level of local income to support the delivery of acceptable library services.

II. STLS Free Direct Access Plan

Describe how all individuals residing within the boundaries of the system but outside a member public library's chartered service area will receive library services.

Member libraries will provide free on-site use of library resources, including the use of computers and access to the Internet, to all individuals residing within the boundaries of the public library system service area. Free on-site use of the resources of the system will also be available to all individuals residing within the boundaries of the system. No individual shall be excluded from on-site use of the library resources of the system or any of its member libraries because of age, cultural, economic or civic status.

Preference for such service may be given to local residents.

As required by Commissioner's Regulation <u>§90.3(a) through (d)(4)</u>] neither the system nor member libraries will charge individuals for library cards.

Individuals residing within the boundaries of the system but outside a member public library's chartered service area will receive service and borrow materials by requesting a library card from a local library.

Describe how the system will assure that those persons living within the system boundaries in an area where a member library chooses to withdraw from the system, or where a chartered and registered library was never a member of the system, will be served by the system.

All chartered and registered libraries in the Southern Tier Library System region are members of the System. If a member library chooses to withdraw from the System, neighboring libraries will issue cards and provide service to residents living in the service area of the withdrawing library.

STLS provides interlibrary loan service to residents; that service will continue to be provided for persons in an area where a library chooses to withdraw from the library system, or ceases to fund library service.

Describe what the system considers "serious inequities and hardships" and the criteria used by the system to make the determination.

"Serious inequities and hardships" occur when jurisdictions refuse to support, or provide sufficient support for a library. Services to local taxpayers are reduced and materials are unavailable because out-

of-chartered service area residents are using those services and materials. Economic impact on an STLS member library, resulting in serious inequities and hardships results when

- 1. Non-residents who actively borrow materials constitute over 25% of the library's borrowers.
- 2. Direct loans to nonresident borrowers constitute over 25% of a library's circulation.

Describe what constitutes excessive out-of-chartered service area borrowing in the system.

"Excessive borrowing" in the Southern Tier Library System occurs when nonresident borrowers account for more than 25% of a library's circulation.

Describe the unserved and the underserved population within the System.

Unserved populations within the STLS region (populations outside of a chartered service area), are defined in color-coded maps developed by the Division of Library Development and posted online. Taxpayers in a majority of school districts in the STLS region have approved tax support for library service; therefore there is an implied contract for library service in the portions of the school districts which extend beyond library service areas.

Describe the criteria used by the system to identify libraries as having an inadequate level of local income to support the delivery of acceptable library services (underserved). List those libraries so identified.

The majority of charted libraries in the System have a public funding referendum that aligns with school district geographic borders. Only 4 of 39 chartered libraries do not have a funding referendum. All 4 of these libraries receive public funds through their municipalities.

The System will use the criteria of Total Referendum Funding per Capita of School District or Town Resident (criteria is dependent upon local funding source) to identify libraries having an inadequate level of local income to support the delivery of acceptable library services.

The System has set the level of adequate funding at \$15.00 per School District or Town Resident based on performance benchmarks within the System that align with New York State Minimum Standards and public library best practices.

The following libraries have been identified as having inadequate levels of local income.

Prattsburg Free Library Wide Awake Club Library Jasper Free Library Dutton S Peterson Memorial Library Wimodaughsian Free Library Scio Memorial Library Savona Free Library Belmont Free Library Andover Free Library Angelica Free Library Bolivar Free Library Alfred Box of Books Library Colonial Library Rushford Free Library 20th Century Club Library E J Cottrell Memorial Library Addison Public Library Genesee Library

Describe the actions the system will take to expand the availability of library services to unserved and underserved individuals residing with the boundaries of the system.

The Southern Tier Library System will be available upon request to work with Library boards of autonomous member libraries to:

- 1. Develop recommendations for funding options and/or charter changes for member libraries.
- 2. Meet with town and member library boards of trustees to discuss the following funding options and charter changes:
 - a) contract with neighboring municipalities to provide library service, or
 - b) expand library service areas and request additional funds from the expanded area, or
 - c) request funding increases from local funding sources, or
 - d) establish voter referenda for library funding, or
 - e) request larger funding increases through voter referenda
- 3. Provide training workshops on funding and charter changes.
- 4. Provide a timetable for such actions. Ongoing 2017 – 2021.
- Identify who will be responsible for carrying out these actions. The library system's Division of Library Sustainability and System Resources.

Describe the conditions under which modifications to the free direct access plan can be made.

A. With the approval of the majority of member libraries and without prior approval of the Commissioner of Education

If a jurisdiction* with a population of over 10,000 ceases providing tax support for a library, and does not contract for service with a neighboring library, modification to this plan can be made with the approval of the majority of STLS member libraries.

Except for the central library, member libraries may refuse to loan non-print materials and equipment and printed materials, less than one year from the acquisition date, purchased with local funds. Libraries must certify to STLS that they are able to identify which materials and services were purchased with various funding sources in order to determine which materials may be restricted.

Member libraries may also restrict attendance at library programs if such programs are supported entirely with local funds.

However, under no circumstances will member libraries charge individuals, who reside within STLS, for library cards or deny on-site use as defined in Section 1 of this plan.

(*A jurisdiction may be comprised of multiple municipalities which have formerly constituted one library service area.)

In addition, in cases where a member library, including the Central Library, can document "serious inequity or hardship" as described in items 3 and 4 of this document, the library can submit a request to the STLS Board of Trustees to place restrictions, consistent with Commissioner's Regulations 90.3, upon the use of library resources and use of services by residents outside the library's chartered service area. The STLS Board of Trustees will conduct a vote of member libraries; if a majority approve, the library may place the restrictions as requested.

These restrictions are limited to:

- non-print materials
- equipment
- printed materials, less than one year old,

The above materials must have been purchased with local funds.

- attendance at library programs supported entirely with local funds. If attendance at programs must be limited, local residents may be given first access to them.

With the prior approval of the Commissioner of Education

Certain additional modifications to this plan may be made for individual libraries with the approval of the majority of member libraries and with prior approval from the Commissioner of Education. Such requests will be submitted in writing to the System board of trustees. The System board will not unnecessarily delay the submission of a member request for additional restrictions once the member libraries have approved the request to go forward. They will include, but not be limited to, the requirements below:

- 1. a.) Documentation of the serious inequities and hardships affecting the resident borrowers of the member library making the request. (For example, if an unserved community defeats a library proposition or terminates a contract for library services, the system may request hardship waiver from the Commissioner on behalf of the affected library.)
 - b.) The proposed modifications that will be implemented.

No modifications will be considered if they include charging for library services.

2. A description of the anticipated impact on resident and non-resident

resident borrowers after modifications are approved and implemented. Restrictions apply only for member libraries. The System may not impose restrictions. The System will continue to serve those populations from areas where approved member library restrictions have been imposed.

- 3. A time frame for the beginning and end of such a modification. Modifications for restrictions will be approved for a certain period of time. Renewals must be made on a timely basis.
- 4. A recommendation from the STLS Executive Director regarding steps to be taken to remedy the underlying inequity with a proposed timetable for action.

Describe how the system will assure that member libraries are complying with the System free direct access plan approved by a majority of member libraries.

The System will require member libraries to certify annually that their library is in compliance with this Free Direct Access plan.

Describe how the System obtained member library input to the plan for free direct access.

The plan was discussed at a Directors Advisory Council meeting on January 27, 2016. Shortly following a draft copy of the proposed new plan, including a link to the current plan was sent to library directors and board presidents for comments. In response to questions, clarifying language was added and the draft plan was further revised by the Directors Advisory Council.

Addendum: Towns with populations unserved and don't provide tax support for library service are:

Allegany County

Birdsall Town—the portion of the town in the Arkport School District Schuyler County Dix Town— the portion of the town not in the Watkins Glen School District Orange Town—portion of the town in the Bradford and Corning Painted Post School Districts Tyrone Town—portion of the town not in Dundee or Watkins Glen School Districts

Member Services by Margo Gustina, Trustee Development Consultant Division of Library Sustainability and System Resources

January and February were very occupied by something I don't like to talk about: Annual Reports. Some successes from this year's reporting season include:

- Agreement between WorkFlows and Director's Station reports
- Almost every library submitted their reports by the due date and with very minimal issues only really on questions new to the report
- The webpage and the detailed color coded spreadsheets mapped to the questions were perceived as extremely helpful
- When I have the opportunity to train the Program and Advocacy Consultant on this process, I will recommend a few changes that will lighten her load and catch some seasonal problems before they surface. Something that sticks out to me is how often the challenges our libraries face have to do with their ability to track finances accurately and then balance their finances through the categories in the report. That problem is larger than the report and is something that I look forward to focusing on in the ways most appropriate to my new position now that Annual Reporting is coming to a close.

Youth Services & Interlibrary Loan by Lorie Brown, Youth Service Consultant and Head of ILL Division of Professional Development and Library Outreach

- Youth Services' events in February: Kids Welcome Here--all about library space for the early literacy audience-special emphasis on play space; Creating Inclusive Storytimes—a webinar from ALA focused on storytimes that are inclusive for kids with special needs. Had a successful Summer Learning Workshop (early March) with lots of support and collaboration from all STLS staff. Focus of workshop was on building and community—both, big and small. Theme this year, for all ages, is BUILD A BETTER WORLD.
- Throughout the month, much time was allocated to collaboration with colleagues. STLS Professional Team collaborated efforts towards finding the *right* person for our new Program and Advocacy Consultant. Collaborated with Ella Chatlani, STLS Administrative Assistant, Barb Tombs & Cassie Wright, STLS Business Office in discovering the appropriate, practical application of the new postage meter. Collaborated with Al Oliveras and Vickie Button to design the Summer Learning Workshop. Collaborated with colleagues from other systems with the planning process for a Youth Services Consultants' Retreat/Meet-Up in May. Collaborated, electronically, with other systems to share our successful (or, not) ideas and program plans for summer workshops for our respective members.
- Collaborating with Mandy Fleming and Margo Gustina to assist the Little Genesee Library to weed, to improve and to automate their collection. This library is working towards making changes to make their library a vital contributor to their community. This project reflects a great deal of physical moving and handling of items but also, a great deal of 'chatter' about library values, guidelines and basic precepts. It is a great conversation to have with them but also a great reminder for us, as to why we do what we do!
- Arrival of new postage meter has given us an opportunity to review the process for mailing interlibrary loan materials back to Tompkins Cortland Community College (TC3). Pam Rogers and I have created an

electronic spreadsheet to connect individual, returned ILL items to the USPS Tracking Number for increased knowledge of items mailed.

Information Technology by Mandy Fleming, ILS & Technical Services Manager Division of Information Technology & Digital Resources

- December was another high volume month for cataloging and processing. Alex is continuing to train Kylie.
- Visited Belfast to review item maintenance procedures and go over follow-up information from October visit.
- Coordinated and presented at system-wide IT/ILS Meeting.
- Worked with AI and Ingram representatives to set up our Ingram account to check against the catalog to prevent ordering duplicate items. Shared this at the IT/ILS Meeting so libraries can use if interested.
- Worked with Margo, Lorie and the director and trustees of Little Genesee to start the process of automating their library.
- Prepared libraries for the Symphony server migration. Worked with Ken during and after the migration to make sure all ILS-related services were up and running properly. Communicated often with libraries via phone and email to keep them up-to-date. Libraries commented that it was a very smooth transition to the new server.
- Worked with Rushford, Penn Yan, Watkins Glen and Wellsville to get E-rate reimbursements for those libraries for the 2015-2016 funding year.
